Outlines of the Coming Effective Response to Jews

Jews are attempting to deplatform the White race. There is no logical stopping point to their campaigns against Whites except genocide. Jews are more open about their actual agenda than they've ever been, as we close 2018. Literally every single medium they dominate promotes loxism, sometimes rawly; more commonly, behind a wispy hide-nothing.

Up until now, Whites and whites have fought back with words. They dominate, per Linder's Media Law The First, any open public space, typically the comment section underneath Jewish Junk Media articles. So much so that by 2018, the judeo-left was taking irritated note of the fact and shuttering comment spaces at increasing numbers abestream publications. It's hard to keep up the pretence you represent the voice of the people when the actual voice of the people laughs up at you and points out the facts you deny and the context you omit. No professional liar wants free-range amateurs pointing out he's a liar – and proving it– within inches of his paid pretense. And that's exactly what free speech and open forums mean to the judeo-left: Something sinister and dangerous and even career threatening. Free media in any form means to the jew-world one thing: exposure. Must put free discussion in triple-strength hefty bag labeled HATE and throw it away. Being jews and leftists, they can't do the honest thing and reconsider their views, or at least relabel them, they do the eternal feminine thing (if they're white-skin delusional leftists) or masculine thing (if they're racial-realist jews coldly pushing the dual code [universal diversity for you, racial nazism for jew) and protect their beautiful minds / Team Jew from those dangerous facts and ideas that threaten to disinfect their rot-bubble or flip the Kool-Aid table at their cult ceremony. Disagreement with (((TPTB and their cheerleader-prostitute-moll media))) = hate. And "hate" must be stamped out.

They don't stop there. Having sun-blocked their own sites, they must move to force the endarkenment on others. Hence de-platforming. Not just space they control but all space should be inky black and cold, devoid of anything that disagrees with them. How to do this? Find the chokepoints or support systems that sustain opposition. Cut off hosting, cut off money. Most internet hosting is a few backbones and subdividing resellers. Most financial stuff goes back to a few banks, two credit cards and ONE online payment system. Kick the bad guys off those, they're really going to struggle. This has been done. Even down to overt domain stealing, their innovation in suppression since Charlottesville, with Google stealing /Daily Stormer's/ url. The other stuff had been done to our VNN back in 2000-2003. The next step in suppression, already operating in China, is using the burgeoning new blockchain technology to create comprehensive lifetracker systems – like credit scores but /for your entire life as judged by jews/ – to identify bad races and individuals and deplatform them out of job and home and eventually breath. The same mindset as the judeo-chinese "struggle sessions" and the judeo-bolshevik gulag but with exciting new technology. Your credit score might be 750, but what's your Jewish Value Number? Are you subservient enough to enjoy utility rights?

As I put it: *The right won the war of ideas; the left won the war of platforms. It remains to see who wins the battle of blood*.

I think I said that on Gab before I was deplatformed from the alt-twitter for the same reason I was deplatformed from real twitter. The jews and judeo-left can only win by deplatforming others out of existence-space. You can't win if you're not allowed to compete. You also can't win if you're not alive. That's where things stand with the right. The problem is, yeah, welcome to Noshitsville. Being right and impotent – maybe it's me, but after 100 years we need some idea-viagra, eh?

Over time, nearly all trends work against the right because the judeo-left controls the institutions that make the decisions that determine the basic setting – who gets into the country and how the people in the country get treated on basic questions. Nothing we normal whites dislike will get better over time, only worse – until we destroy the actual people and their combinations who are the “causes” producing the anti-White circumstances we deplore and that only grow worse over time.

We must ACCEPT that WE WON THE WAR OF IDEAS.
Accept that.

And then accept the next thing – the most important thing:

IT DIDN'T MATTER.

Because it wasn't a war of ideas at all.

It was just a war.

We are like the left in a perversely ironic way: we refuse to acknowledge reality when it comes to politics. The jews/left aren't playing the same game we are. They acknowledge no rules. That's what politics means to them: not an aspect of life but the whole thing. Their sole goal is power, their sole intent is to win. The rest is circumstance and details – mere calculation of what they can get away with today; to be recalculated tomorrow. What they do is determined by expediency-capacity-possibility not principle. All jewish history attests to this. When it comes to eating swine or squid jews have a thousand dietary rulelets; when it comes to politics, it's simply kill, bribe, lie – /do whatever you have to to overcome the hated goyim/. /Because everything in their world belongs to you./ That's their mentality AND their morality – the POV of the eternal lying locust. YOU are stealing from them by existing, let alone owning anything. White-right jackasses who refuse to believe that all people aren't the same thing (equal in their bottom stamp /Made in Heaven by God/ – their creation-fiction being yet another noxious jewish-overlord egalitarianism-for-white-idiots-called-liberals-including-christian-conservatives,-the-spiritual-egalitarian-liberals) better wake to the truth.

We must bring a gun to a gunfight, to use the standard and good cliché.

The question that must concern us to the exclusion of the rest is: What can the white-right do that's effective TO REGAIN RACE-SOVEREIGNTY?

That's what this essay is about, but there's loads of room for you to think too, considering your resources, location and other relevant factors. I'm simply observing the facts of our circumstances in and out of politics, and envisioning possibilities and inferential likelihoods. I'm outlining how I see the future developing, not painting a Dutch portrait.

Our attitude must become: you punch us – we kill you.

Killing “them” (jews and those who serve them) is the next step in White politics.

They have left us no choice. Bowers was the first, he won't be the last. [Brenton Tarrant] Resistance to judeo-tyranny isn't a choice but our White duty.

You will see in coming years white men not content to yap like bitty maltese about winning the war of ideas.

That war, as I've said 100x, was won 100 years ago. The j-left concedes this by its bannings. The ideological rotten globalist cloth and dented diversity buttons the sheekies are peddling ain't nobody buying – unforced. So the jews and those who serve them and work for them and are paid for them won't allow any other options. WE KNOW THIS. We'll keep saying it and nothing will keep changing. Sometimes insanity becomes boring and we turn back to possibility.

What will change things is when people who care simply identify the jews and people and buildings and institutions attacking White existence and deplatform them from their lives. You will see a day when people who care simply shoot journalists on sight. They will, for instance, carry out a mass shooting inside a JJM Operations Camp (aka media center). The journalists, who are simply anti-White communist apparatchiks, deserve it. Eventually they will get it. I don't know who's. I don't know wheres. But I know ITZ COMING. It's absolutely inevitable because it is logical and necessary – whereas other options circle the same cul-de-sac. Other options have a full century of disproof behind them. Complaining about bias and unfairness are the conservative's form of masturbation. Feels good, accomplishes nothing. Exterminating jews and those who serve them feels good and accomplishes everything. We now leave the “just build the alternative platform” theory/pipe dream of Pierce and others behind. It doesn't work. (((They))) won't allow it. That's the message of the post-Charlottesville period in specific, but the message of the online generation (1995-2018) more generally. This is the hand we're dealt. The powers that be — jews and those who serve them — will not allow us to beat them – not even to compete with them. We accept it, and use our reason to tell us how to respond. Hence this piece. And its undeniable conclusion: It's time to kill.

I also believe whites will increasingly look to an old standby from civilized times: the fire. People who care should look at the work of the bum camps in California, setting fires and burning out swathes of civilization. I see this happening to jewed west coast spots and other places that can be destroyed by flames. Fire affords the person who cares a good chance to express the depth of his caring through lovingly repetitious acts of loyal service.

These are two examples (atomically repurposing alleged journalists and oxygenics) of what we'll be seeing in years to come. Here's a third. We posted a link to a guy at either /Russia Insider/ or RT. It involved speculation about how Russia would defeat the USA if it came to it. A lot of destruction of

grid – transformers and such. Everything that guy said could be done by domestic people of care, the ethnicity of the carer and his motivation are irrelevant. It's an area I know little about, but again I'm going purely by logic, and logic indicates that taking out the bases of our enemies' indoor life will make White-sense to people of care.

Jews are biologically driven to destroy whites as competitors, even though whites aren't competing with them and have the greatest difficulty even making them out from their own kind.

Jews have diminished White lives by reducing white opportunities. As even a jew Unz admits, they practice gross discrimination at the top colleges, so that their objectively inferior kin receive the best education, through tribal nepotism, while whites of individual merit are stifled. They don't ever report on this, of course, so no one knows about it. With chutzpah, being well aware of the actuals of discrimination, they go on about 'white privilege.' They laugh up their sleeve about how docile and stupid whites are. *"They let us in their country and we took it from them!" expresses jews' deepest feeling about America.* They feed whites multiple fake histories of their own countries and civilization and race, to confuse them about where they come from. They promote contradictions to befuddle people. Race doesn't exist, so white ain't a thing. Yet whites are responsible for all the evil in the world. It's confusing and intended that way. Logically it makes no sense but it isn't intended to. It's a jewish punch aimed at our collective racial head, intending to shatter our jaw and concuss the brain of our common folk. It is up to us White elite to set our people straight. That's what we do on all our online sites, and that's why jews work to knock us off. Yet we have right idiots blasting about "marketplace of ideas." A plausible but false analogy that hides the reality I'm describing.

Jews will call the coming de-deplatformers terrorists but they are more accurately called CAREorists. Maybe CARE could stand for Caucasian Action Response Engineers, i don't know. No acronym is necessary, just action.

You brought it on yourselves, jews. By your actions over thousands of years, you have well & truly & justly earned your tribe a racial death sentence. People who care will not sit by while you carry out a second russian-lol revolution on the American continents.

For you non-jews who like what the jews are doing, or support it because it's good for your career, or it fits your kooky idea of mythical jewsus and his dogboy called Brainless Galaxially-Promiscuous Spiritual Love, you deserve your fair share of fairness too. The most notable thing about you is that ultimately you're in the same tangible and figurative position as the whiteskins you despise. You're just as open to being picked on. You may work for a jew or a jew's government agency but that won't afford you ultimate protection. It will only protect you under the rules as whites have played by them up till now – using the legal, formal, ordinary-public laws and channels you have seen fit to mock and destroy and make serve your own perverse ends. You called the game, and you think you're winning because you're the only ones playing. You will find, in the new era of Whitecare, that you are remarkably unprotected – especially in comparison to the jews you butler for. You have no hate churches like your boss. You have no aggressive flip-labeled defense groups to protect you. No organization. You have nothing but the illusory protection of your Semitical Correctness.

Whites who care will form small cells of trust. They will see that jews are clustered in maybe a dozen big cities. To project their power they need local elite or at least representatives. But these locals have no organizational history and backing as jews have. They can be approached, just as easily as the whites they've spend their careers denouncing as haters and deplatforming (depriving

of jobs, status, income – all other ingredients to a normal happy successful life). They have daughters and sons that can be borrowed and disappeared. They have houses that can be teepee'd in orange glow. They themselves can be taken in company. Pressed for contributions. Made to answer interesting, relevant questions on film, which can be posted on the Internet, until their uncaught fellows ban it, anyway.

When you deplatformed us, servile whiteskins and jew masters, you made us the Team we never were. When you deprived us of legal redress, after one hundred years of usurpations and abuses, you made us an army.

All we ever really were was normal white men. To you, that's the worst thing in the world. You call us haters. You abused us. You discriminated against us. You defamed us. You destroyed our jobs and our families. You attempted to genocide our race. The blood and lies are 100% on your hands. I haven't moved one fraction of one inch beyond the facts in this piece – as you know yourselves. You deserve what you are going to get. You know that EVEN BETTER than i do.

We Whites now see that this isn't a battle of ideas but a zero-sum racial war. We have nothing to lose – and by nothing I mean /everything/. We have a fresh new world of self-respect, money, power and racial sovereignty to gain. They who strike blows win arguments too. They attract adherents. Some of you judeo-leftist whitesins still have time to repent and join us. Time to become White, for the first time.

Proud, non-servile, racially conscious, own-race-valuing White men and women. Or you can bet on the (((System))). Maybe the Bad Ship Semite will stay afloat. But if it doesn't, you will be held as guilty as jews themselves.

There's no gray area here. Either you support and approve White existence or you approve and work for white extinction. If the former, welcome to Team White. If the latter, just realize that sooner or later you and yours and your job and your house are likely to receive a Welcome Wagon bearing gifts from people who care.
